Erosion Control Structures

Site Plan

Provide a sketch showing existing site features and proposed best management practices. Include farm buildings, and the distance to and location of drain tiles, catchbasins, wetlands, watercourses and wells. Include other information that you feel is important. For a fencing project include the size of the pasture, location and length of watercourse and fence location.

A large rectangular area filled with a light gray grid, intended for a site plan sketch. The grid consists of 20 columns and 20 rows of squares.
