Septic Systems

Site Plan

Show existing site features and proposed best management practices. Include farm buildings, and the distance to: dug wells (>60 m / 200 ft minimum), watercourses, drilled wells (water-tight casing 6 m deep, >30 m / 100 ft minimum), lake front, field tiles, building, property boundary (3 m / 10 ft minimum), driveway or parking area, roadside drainage ditch, catchbasins, and wetlands.

A large rectangular area filled with a light gray grid, intended for drawing a site plan. The grid consists of 20 columns and 20 rows of squares.
